ABOUT ME

Technologist in Software Development with experience building web applications and information systems. Specialized in Front-end development, with strong foundations in interface design, user experience, Back-end technologies, SQL and NoSQL databases, and cloud service deployment.

Committed to quality, continuous improvement, and achieving business objectives. Recognized for adaptability, teamwork, and a results-oriented mindset.

WORK EXPERIENCE

JAVA DEVELOPER ENGINEER | Activos S.A.S. | Barranquilla

- Aug. 2025 - Present
- Frontend development with Angular for views and modules in internal company projects, including REST API integration.
 - Backend development with Node.js and NestJS, implementing services and endpoints for several organizational systems.
 - Work under agile methods (Scrum/Jira), participating in sprints, task management, and incremental feature delivery.
 - Work with Firestore databases, including query design and support for backend business logic.
 - Deployment and update management in GCP cloud environments, contributing to system availability and scalability.

SYSTEMS ANALYST | Gestión Laboral S.A.S. | Barranquilla

- Aug. 2022 - Aug. 2025
- Active participation in developing an applicant tracking system using Angular for the frontend, Node.js with Express.js for the backend, and PostgreSQL as the database.
 - Implementation and deployment of system updates and enhancements on AWS.
 - Advanced use of Office 365 and Power Platform tools, contributing to continuous improvement of business workflows.
 - Experience with SQL Server databases, stored procedures, and SQL queries for data extraction and analysis.
 - Design of intuitive and functional interfaces to improve user experience and interaction with information systems.

FRONT-END DEVELOPER | SENA - ICT Campus | Barranquilla

- Jan. 2022 - Jun. 2022
- Developed and designed interfaces for the Digibootcamp web application using modern styles and responsive design.
 - Contributed to internal educational projects using CSS, Bootstrap, PHP, and JavaScript, improving interactivity with modal alerts.
