SUMMARY

Full-stack developer with 4+ years building production web applications in TypeScript: Angular on the front end, Node.js and NestJS on the back end, PostgreSQL and SQL Server for data, deployed on AWS and GCP. I manage AI agents (Claude, Codex) to streamline the development workflow: automated testing, code review and early bug detection. Systems Engineering student, expected to graduate in late 2027.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, SQL, HTML, CSS
Front end: Angular (SPA and SSR), Astro, Tailwind CSS, Bootstrap, responsive UI design
Back end: Node.js, NestJS, Express.js, REST APIs, Google OAuth
Data: PostgreSQL, SQL Server (stored procedures), Firestore
Cloud and DevOps: AWS, GCP, Docker, Git, GitHub
AI-assisted development: agent orchestration (Claude, Codex) for automated testing, code review and bug detection
Methodologies: Scrum, Jira, code review

WORK EXPERIENCE

Java Developer Engineer, Full-Stack | Activos S.A.S. | Barranquilla, Colombia | Aug 2025 - Present

- Work on the company's main product, a job search platform, redesigning and visually improving all of its interfaces.
- Build Angular views and modules for the company's internal systems, integrated with REST APIs.
- Develop services and endpoints with Node.js and NestJS for several of the organization's systems.
- Design Firestore queries and data access that support back-end business logic.
- Deploy and manage updates on GCP, contributing to system availability and scalability.
- Deliver features incrementally in Scrum sprints managed in Jira.

Systems Analyst | Gestión Laboral S.A.S. | Barranquilla, Colombia | Aug 2022 - Aug 2025

- Contributed to an applicant tracking system (ATS): Angular front end, Node.js and Express.js API, PostgreSQL database.
- Deployed system updates and improvements on AWS.
- Wrote SQL Server stored procedures and queries for data extraction and analysis.
- Improved company workflows with Power Platform and Office 365.
- Designed intuitive, functional interfaces that improved how users interact with information systems.

Front-End Developer | SENA - ICT Center | Barranquilla, Colombia | Jan 2022 - Jun 2022

- Designed and built responsive interfaces for the Digibootcamp web application.
- Contributed to internal educational projects with JavaScript, PHP, CSS and Bootstrap.

FREELANCE AND PERSONAL PROJECTS

- **Cotizador (personal product).** PDF quote and invoice generator for freelancers and agencies, with no backend, Google Drive backup and a CLI for AI agents (Astro, TypeScript, Node.js).
- **Benitech and Tecniart, product catalogs.** Search, filters, an SEO page per product and WhatsApp ordering (Astro, Sanity).
- **Diversa Experiences, Cartagena tour agency.** 20+ experiences and WhatsApp bookings (Astro, Sanity).
- **Klaystone Business Solutions, US accounting firm.** Bilingual website, fully remote collaboration (Astro).
- **Ediciones Kaziyadu, publisher.** Book catalog migrated from Angular to Astro to improve SEO and load speed.
